*Respeto por la Tierra, Pasión por el Vino*

## Yago Aznar Family

Bodegas TEMPORE was created by the Yago Aznar family in the year 2000.

After 4 generations of vine growing and with an immense knowledge in organic farming, the family decided that this effort had to be properly represented in the wines, therefore decided that it was time to not only grow grapes but to pour into a bottle all the experience gained during almost an entire century.

Bodegas TEMPORE was born to deliver the best wines that this land has to offer following a very simple step, *“Respect for the Land, Passion for Wine”*.

With over 75 hectares of organic vineyards Bodegas TEMPORE produces the best Garnacha and Tempranillo wines from the Spanish region of Aragón.

## Our Vineyards

Our vineyards cover an area of 75 hectares that extend over a plain at a height of 550 metres above sea level.

A limy and sandy soil rich in minerals, scarce precipitation that does not exceed 300 litres per year and a 90% sunshine rate and low yields of no more than 5.000 kg per hectare are the characteristics that provide our wines with their earthy character - warm and persistent wines, full-bodied and with suggestive aromas.

## Our Job

Our job is in constant movement, our job is our life and we grow each year along with our vineyards and wines. We believe that wine is made in the land so we work daily to improve the quality and sustainability of our terroir.

We travel and learn, we listen to our vineyards, to our clients and adapt our way of working to always deliver only excellence in everything we do.

## Our Team

Our team is our family.

A team of professionals specialized in every aspect that involves the running of a winery, but what is most important is that we are a team passionate about what we do.

Professionals and experts in what we do, yet sure that every day there is something more to learn.

## What makes us different

We are different in many ways during all the process involved in winemaking. In the land we do not seek for large productions, we seek for excellence. We innovate in agriculture to improve our vine growing because we believe that there is always a way to do it better.

Quality in our wines is evaluated by every single member of staff including our customers that are also part of our team.

We travel the world to listen to our clients, to the consumer, to foresee new trends and to come back home and make sure that we evolve without losing sight of where we come from.

We do not have customers, we have partners all over the world, and our objective is to work together from the beginning to the end to ensure success on both sides.
